Part 1: Introduction

In accordance to with the Standard Operating Procedures on Force and Sector Commander’s Evaluation of Subordinate Military Entities in Peacekeeping Operations, Force Commanders are invited to submit a summarized and consolidated report of Force and Sector evaluations of each unit and their findings to OMA for UN Headquarters information and action as appropriate.

These reports are discussed with relevant TCCs to better identify and remedy specific TCC contingent shortfalls. The consolidated evaluation report sent to OMA should comprise a summary of the strengths and weaknesses of the unit evaluated, focusing on:

1. The performance of the evaluated entity and progress made from any previous evaluations.

2. Ability to perform the specific capabilities and tasks required in the evaluated entity’s Statement of Unit Requirement and applicable UN Military Unit Manual for that particular type of unit.

3. Recommendations for the evaluated unit’s improvement, including a statement of additional resources required from Sector, Force, Mission Headquarters, TCCs or UN Headquarters.
   - Recommendations for improvement may include actions to address personnel skills and capabilities, training, manpower strength, equipment capabilities, readiness and logistical requirements.

Please follow this link to access the SOP.

This tool is standardised and is developed for the evaluation of all units. For further guidance on company, platoon and Team Site level, see the applicable UN Military Unit Manuals (Special Forces, Aviation, Force Headquarters Support Company, Reconnaissance, Signals, Logistics, Military Police, Riverine, Engineers, Maritime and Transportation Units).
