A. Assessment and Evaluation Process
B. Performance Assessment and Evaluation Report (PAER)

A. PURPOSE

1. The purpose of this Standard Operating Procedure (SOP) is to standardize the required methodology and format for the Assessment and Evaluation of the Operational Performance of Formed Police Units (FPU). The assessment and evaluations, undertaken utilising the Performance Assessment and Evaluation Report (PAER) methodology, will be carried out by an evaluation team selected by the Head of the Police Component (HoPC). The assessments and evaluation findings and recommendations will be validated periodically by representative(s) of the Department of Peace Operations (DPO) to ensure the performance of FPUs operating in peace operations maintain the required standard or above.

B. SCOPE

2. The contents of this SOP apply to all United Nations FPU contingent personnel serving in United Nations field missions.

3. This SOP is intended for those entrusted with managerial roles over the FPUs and who are responsible for assessing and evaluating the performance of the FPUs in United Nations peace operations.
C. RATIONALE

4. Member States are responsible under General Assembly resolution 49/37 of December 1994 for the pre-deployment training of all military and police personnel provided to UN peace operations. Training should be provided in conformity with UN peace operations training standards. The training standards include core pre-deployment training materials (CPTM) and specialised training materials for police (STM).

5. Prior to deployment, an agreement is reached between the United Nations and the Police Contributing Country through a formal Memorandum of Understanding (MoU) based upon a mission specific ‘Statement of Unit Requirements’ (SUR) for the given FPU. This agreement clearly outlines the standards necessary to maintain an effective operational capability. Compliance with the SUR, along with undertaking the Mission mandated tasks in accordance with all United Nations requirements, including respective plans and guidance, represents the Required Standards of operational performance.

6. The revised DPKO-DFS Policy on Formed Police Units in United Nations Police in Peacekeeping Operations (2016.10) ("FPU Policy") and its subsequent iteration, further articulates the required conduct of FPUs in the field as well as a clear delineation of tasks. This policy also states that FPUs will be subject to regular inspections and the assessment of their operational abilities, including of their logistic capabilities.

7. The operational and logistical ability to perform mission-mandated tasks and the level of their performance by a particular FPU, are subject to continuous assessment, conducted on behalf of the HoPC, by the FPU Coordination Office or by UNHQ, if necessary. These assessments and their reporting are in line with the requirements of Security Council resolution 2436 (2018). Further, the evaluations are subject of discussions in, amongst others, Quarterly Integrated Performance Meetings amongst DPO / DOS / DMSPC senior leadership, form part of DPO T/PCC Knowledge Management System, used in selection and other decisions and PCC feedback meetings as well as Mission-specific Security Council reports. The evaluations are also critical for identifying outstanding performance and shortfalls, including remedial measures.

8. Any observation regarding underperformance or non-compliance with United Nations standards or undeclared caveats must be immediately communicated to the HoPC and Police Division for further review and action, in consultation with mission leadership.

9. This SOP provides detailed guidance on the processes to be followed to assess and evaluate the performance of all deployed FPUs.

D. PRINCIPLES

10. In addition to the regular inspections and evaluations already mandated in the various policies and operating procedures of the United Nations related to FPUs, every FPU deployed in a field mission will be also assessed in accordance with this SOP.

11. During the implementation of this SOP, the assessment and evaluation of the deployed FPUs should be carried out on a quarterly basis by an evaluation team selected by the Head of the Police Component (HoPC) and which remains under the HoPC’s overall supervision and control.

12. The in-mission assessment and evaluations will be recorded in a standardised Performance Assessment and Evaluation Report (PAER). In all cases, PAERs are to be
prepared in the English language. In the case of Francophone FPUs, the PAER should additionally be translated in French language.

13. Once the PAER of an FPU is completed and approved by the HoPC, the Evaluation Team Leader should ensure (within no more than one week) the PAER results are entered in the PAER On-Line Survey tool via a link provided by the FPU Coordination Office and distributed to mission leadership.

14. The online database securely stores this information and allows it to be used to inform future decision-making processes at United Nations headquarters.

15. The HoPC is responsible for the recommendations and evaluation made on a PAER which need to be supported by documented evidence.

16. It is therefore essential that these final recommendations contained in the PAER are fully consulted, transparent, fair and documented.

17. The process of documenting the PAER and its submission to PD should normally be completed and aligned with the rotation cycle of the respective FPU and be co-ordinated with the other assessment processes, including the COE Quarterly Verification Inspection.

---

E. PROCEDURES

18. The Assessment and Evaluation of the Performance of FPUs should be carried out in full compliance with this SOP and other applicable guidance of the United Nations. This should not be supplemented with or substituted in its entirety by the principles, policies, procedures or practices of national authorities or regional organisations.

19. The Formed Police Assessment Team/ Assessment of Operational Capability (FPAT/AOC) process is important for readying the unit for the assessment of performance in the field once deployed. Therefore, it is essential that recommendations from performance assessments undertaken within the purview of this SOP be shared with PCCs so that they can integrate these recommendations into the FPU pre-deployment trainings of future rotations.

20. This SOP details the assessment and evaluation that takes place routinely during each quarter of a regular 12-month deployment (or every 3 months in the event of a deployment of longer duration). Given the relatively short duration (twelve months) of a typical deployment, the overarching principle of this evaluation process is one of continuous improvement to both address any issues for FPUs coming to the Mission in the next rotation as well as to improve overall service delivery.

21. As all operational FPU members are required to be tested on their weapons handling and shooting skills once every six months, the first of such testing should coincide with the second quarterly performance assessment conducted under this SOP. Similarly, HOPCS are to ensure that as far as practicable, quarterly COE inspections also coincide with the quarterly performance assessments conducted under this SOP.

22. Performance shortcomings often first show up during the initial few weeks or months of deployment, hence this initial period provides a key opportunity for HOPCS to address performance gaps and take action. As such, the “First Quarterly Assessment” process should include the development of a Performance Improvement Plan (PIP).
23. To allow for performance improvements, following all subsequent evaluations, the PIP should be updated addressing in detail, areas needing improvement, and which will make up part of the following quarter’s assessment.

24. The assessments in each of the quarterly performance reports should build on the previous quarter assessment. As such, the final quarter assessment would serve as the End of Mission/ final evaluation of the Unit’s performance, including within the context of Para. 46 of the FPAT/AOC SOP 2017.09.

E. 1 Assessment Process

25. The primary consideration for assessing the overall performance of an FPU will be based on the following main areas of: (1) Comprehension and Support of the Mission Mandate, (2) Command & Control, (3) Protection of Civilians (POC), (4) Operational Readiness and Capability; (5) Administration; (6) Sustainment, Logistics and Memorandum of Understanding (MOU) compliance; (7) Training aspects, (8) Conduct and Discipline, (9) Health and Welfare and (10) Commentary.

26. The PAER process described in this SOP offers a framework for conducting a structured, well-coordinated and gender responsive assessment and evaluation of a FPU and proceeds according to the following process:

27. HoPC Directive: During the initial Commanders’ Meeting, the HoPC will introduce and describe the PAER process, and discuss the scheduling of the assessment visits with FPU commanders. This will take into consideration the different lengths of the various contingent deployments, and the organization/national composition of the different units.
28. After this meeting, a schedule of FPU assessment and evaluation cycle is circulated to the FPU concerned.

29. **Assessment Team**: The assessment will be conducted on behalf of the HoPC by the PAER Team. The team may vary in composition and size according to its tasks, however, the HoPC should ensure that the team is proficient in their areas of assessment, has a clear understanding of the evaluation process, utilises standardized evaluation criteria (see para. 32), is unbiased and understands the implications of the ratings it provides. The HoPC defines an appropriate team based on the specific areas requiring evaluation and taking into consideration, gender balance. Depending on the areas being evaluated, the HoPC should include appropriate subject matter expertise, such as gender advisers, personnel specialists, etc. If not available from within the Police Component or the Mission, certified specialists can be obtained from outside elements, including UNHQ, in consultation with PD.

30. Prior to any PAER, the designated team leader will provide the FPU commander with an Evaluation Plan. The Evaluation Plan will consist of the PAER template and a schedule which details any specific activities, areas of interest and key documents that will be used to ‘demonstrate’ each evaluated criterion. At the same time, the PAER team leader starts the coordination of practical requirements for the visit. The PAER team will follow the
approved evaluation SOP protocol. No changes should be introduced to the evaluation plan unless approved by the HoPC.

31. **Assessment**: The assessment will be conducted as per the schedule outlined in Annex A. The full assessment will take place during the PAER visit, and the initial findings collated, and the evaluation made prior to departure. The evaluation results will be shared with the FPU Commander through a formal briefing and the FPU commander will be given the opportunity to make any comments on the evaluation prior to signing it off.

1 See para.5 - Compliance with the SUR, along with undertaking the Mission mandated tasks in accordance with all United Nations requirements, including respective plans and guidance, represents the Required Standards of operational performance.

2 Serious & systemic performance issues are shortfalls in one area that have a serious and lasting negative impact and that cannot be resolved ahead of the next evaluation (i.e. within 3 months).

3 “Outstanding” as used here are for quarterly ratings in specific areas. These are distinct from “Outstanding” as used for Unit/s nominated for recognition of Outstanding Performance to the UNHQ, which should be done by the HOPCs in line with Annex 3B, including within the purview of the exclusion criteria stipulated in the DPO Integrated Peacekeeping Performance and Accountability Framework (IPPAF). Any unit rated as extraordinarily high (such as 7 on all dimensions with very positive commentary), could also prompt the mission to ask if the unit would deserve a recognition of Outstanding Performance by the UNHQ.
A clear explanation should be provided as to how the unit substantially exceeds the performance of most FPUs.

33. As previously mentioned, an FPU is required to maintain a constant state of operational readiness that enables it to deliver its mandated tasks and functions. This 'Required Standard' of operational readiness will be measured through a combination of:
   - Maintaining the standards of the AOC
   - Maintaining the fitness of the COE against the MoU
   - Compliance with the SUR
   - Compliance with all relevant United Nations guidance and training requirements
   - Service delivery of Mission mandated tasks and functions

34. **Performance Improvement Plan (PIP).** In all cases, a Performance Improvement Plan will be agreed between the PAER Team Leader and the FPU Commander. The overarching aim of a PIP is not to be a punitive measure, but rather to assist with bringing the unit to optimal performance.

35. As outlined in Annex ‘B’, the PIP will be an agreement between the PAER TL and the FPU commander and will:
   - Clearly identify what the issue that needs addressing is
   - Determine what remedial action is required to bring it up to the Required Standard
   - Whose responsibility it is to deliver this action
   - What additional resources can be utilised to support PIP e.g., support from UNPD etc
   - The timeline for having it completed
   - Risks or challenges that may affect its completion, e.g., host state-imposed restrictions
   - How those outstanding matters will be re-assessed

36. **Post Assessment.** The finalized PAER and supplementary PIP will be submitted to the HoPC within 7 days of the visit being conducted. The HoPC will review the report and endorse the findings or return to the PAER TL for additional information.

37. Once the HoPC has signed off the report, it should be disseminated immediately to the following Distribution Group:
   - SRSG
   - D/SRSG
   - Chief of Staff - Police
   - Deputy Chief of Operations - Overall FPU Commander
   - FPU Unit Commander
   - Police Division – DPO UNHQ (through UNPD FPU Coordination Office)
- Member State via Permanent Mission (through UNPD)

38. In the event of significant operational deficiencies, performance failure or operational caveats to resist orders, or if the terms and conditions of a PIP are not met, the HoPC will consult with the Police Division regarding additional actions required to ensure performance improvement. This may include (but not limited to) measures including withholding the reimbursement or repatriation of responsible personnel or the unit.

39. The HoPC endorsed quarterly PAER evaluations and findings that are forwarded to the Police Division at UN HQ should form the basis of the ongoing consultations with PCCs. These reports will be discussed with relevant PCCs to better identify and remedy specific PCC contingent shortfalls.

40. The consolidated PAER (As per Appendix B) sent to PD should:

   - Consist of an executive summary of the strengths and weaknesses of the FPU evaluated, focusing on the performance of the progress made from any previous evaluations.
   - Evaluate the ability of the FPU to perform the specific capabilities and tasks required in the evaluated entity’s Statement of Unit Requirement and the FPU Policy.
   - Provide recommendations for the evaluated unit’s improvement, or the improvement of replacement units, including a statement of additional resources required from Police Component, Mission Headquarters, PCCs or UN Headquarters. Recommendations for improvement may include actions to address personnel skills and capabilities (including professional and language skills in line with the mission requirements and overall objectives), training, staffing, gender, equipment capabilities, readiness and logistical requirements.

41. End of Rotation / Final evaluation report (EOR) (see para. 24): The final quarter performance assessment should serve as the End of Mission / final evaluation of the Unit’s performance. In addition, within the HOPCs comments, the EOR should accurately detail the consistency across evaluations, the management of PIPs and note any significant improvements or declines in performance within the rotation cycle.

F. Roles and Responsibilities

42. While the HoPC has the responsibility to ensure that all FPUs are aware of this assessment and evaluation process, its implementation will be overseen by the Officer in Charge of FPU Operations (typically the Deputy Chief Operations/FPU Coordinator), with the appropriate liaison and co-ordination with the FPU Commander and appropriate mission components. As applicable to all other assessment and evaluation processes, the HOPC should ensure that a gender lens is applied holistically throughout the PAER process.

43. The Evaluation Team Leader as designated by the HoPC, will be responsible for conducting the assessment and evaluation of the units.

44. To ensure appropriate impartiality and integrity of the PAER, the exercise will be conducted at least by two officers, nominated by the HoPC. Wherever possible, the

4 A limited number of Integrated T/PCC performance feedback meetings are also held each year to provide feedback to Member States via the Permanent Mission.
Evaluation Team should avoid selecting members from the same country as the FPU being assessed. The evaluation team should familiarise themselves with the last evaluation for the unit prior to conducting any evaluation. In the case of a first quarter evaluation, the Evaluation Team should familiarise themselves with the Assessment of Operational Capability (AOC) of the deployed FPU.

45. The evaluated FPU is responsible for ensuring that any recommendations or PIP requirements for performance improvement provided in the PAER are implemented to the best of its ability, and progress reported to the HoPC through the chain of command, in accordance with this SOP.

46. Travel and subsistence costs for the evaluation team will be covered by the Police Component’s budget.

G. TERMS AND DEFINITIONS

**Assessment:** The process of objectively understanding the state or condition of a thing, by observation and measurement.

**Assessment of Operational Capability (AOC):** The pre-deployment assessment carried out by Police Division of a prospective FPU to determine suitability for deployment. Assessment includes both operational and administrative/logistical criteria.

**Law enforcement officials:** All officers of the law, whether appointed or elected, who exercise police powers, especially the powers of arrest or detention. In countries where police powers are exercised by military authorities, whether uniformed or not, or by State security forces, the definition of law enforcement officials should be regarded as including officers of such services.

**Operational Control:** The authority to perform those functions of command over subordinate police forces involving organizing and employing commands and forces. Operational control includes assigning tasks, designating objectives and giving authoritative direction to all individual personnel, units and sub-units within the police component necessary to accomplish the mission. This may be delegated to the appropriate subordinate level.

**Performance Assessment and Evaluation Report (PAER):** The mandated document and process used to measure the operational capabilities of a FPU in the field.

**Public order management:** Police actions aimed at facilitating the population’s exercise of their fundamental rights without any disturbance or unjustified hindrance and preventing assemblies from threatening or actually harming public safety.

**Public safety:** Day-to-day security that allows full freedom of movement; virtual absence of crime and disturbances.

**Required Standard:** The constant state of operational readiness that enables an FPU to deliver their mandated tasks and functions. Measure through a combination of maintaining the standards of the AOC, maintaining the fitness of the COE, maintaining the SUR, compliance with all relevant United Nations Policy, SOP’s and training requirements and service delivery of Mission mandated tasks and functions.
Rule of law: Principle of governance in which all persons, institutions and entities, public and private, including the state itself, are accountable to laws that are publicly promulgated, equally enforced and independently adjudicated, and which are consistent with international human rights norms and standards. It requires, as well, measures to ensure adherence to the principles of supremacy of the law, separation of powers, participation in decision-making, legal certainty, avoidance of arbitrariness and procedural and legal transparency. It may be delegated to and exercised at the level of subordinate sector and/or unit commander.

United Nations Operational Authority: The authority transferred by Member States to the United Nations to use the operational capabilities of their national Formed Police Units to undertake mandated missions and tasks. This includes the full authority to issue operational directives within the limits of (1) a specific mandate of the Security Council; (2) an agreed period of time; and (3) a specific geographic area. This does not include responsibility for some administrative matters, such as pay, allowances and promotions.

United Nations Police (UNPOL): Includes both Headquarters staff in the United Nations Police Division (inclusive of the Standing Police Capacity) and mission staff in United Nations police components in the field.

Part 1. Comprehension and support of the Mission mandate

---

6 See SOP para.5 - Compliance with the SUR, along with undertaking the Mission mandated tasks in accordance with all United Nations requirements, including respective plans and guidance, represents the Required Standards of operational performance.

7 Serious & systemic performance issues are shortfalls in one area that have a serious and lasting negative impact and that cannot be resolved ahead of the next evaluation (i.e. within 3 months).

8 “Outstanding” as used here are for quarterly ratings in specific areas. These are distinct from “Outstanding” as used for Unit/s nominated for recognition of Outstanding Performance to the UNHQ, which should be done by the HOPCs in line with Annex 3B, including within the purview of the exclusion criteria stipulated in the DPO Integrated Peacekeeping Performance and Accountability Framework (IPPAF). Any unit rated as extraordinarily high (such as 7 on all dimensions with very positive commentary), could also prompt the mission to ask if the unit would deserve a recognition of Outstanding Performance by the UNHQ.
1.1 To what extent do the FPU members understand the Mission mandate?
